5. Fairness of the internal evaluation process by the teachers.

 Copy

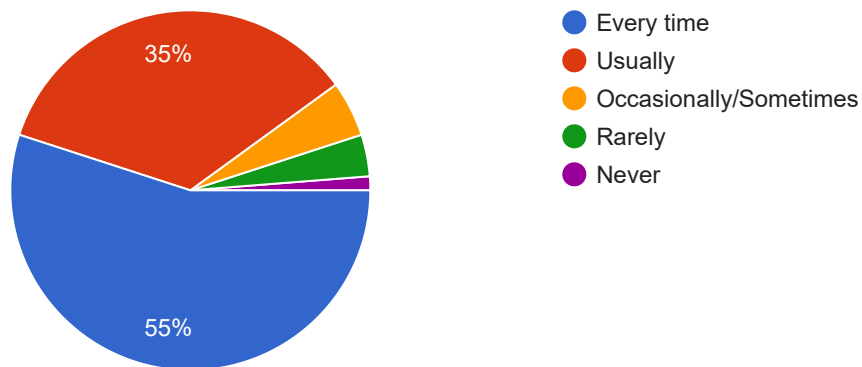

80 responses

6. Was your performance in assignments discussed with you?

 Copy

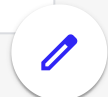

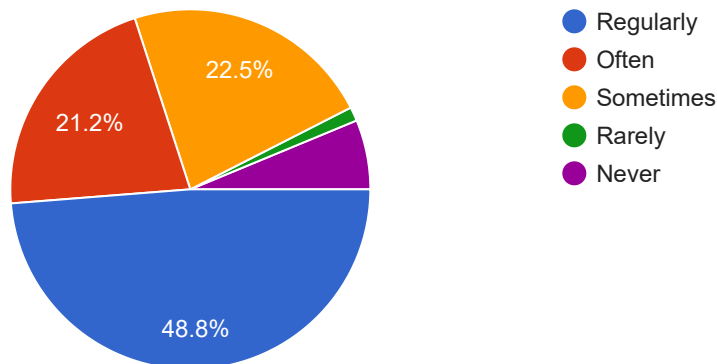

80 responses

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

 Copy

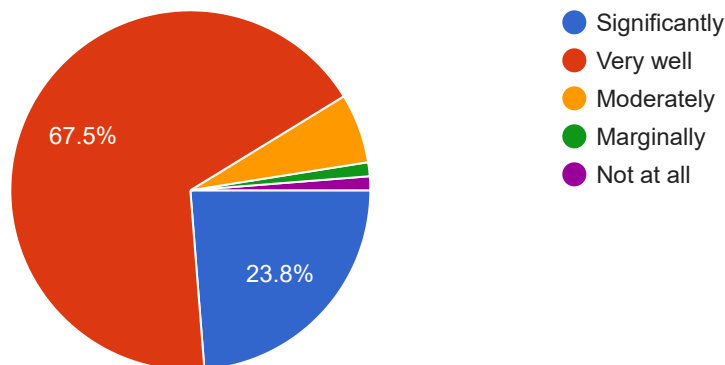

80 responses

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

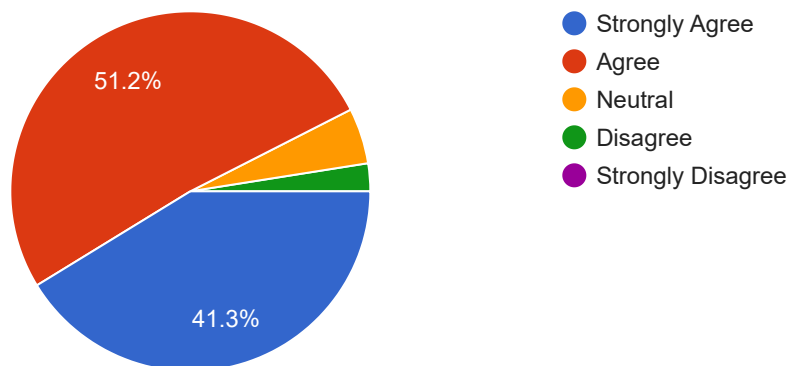

80 responses

9. The institution provides multiple opportunities to learn and grow

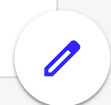

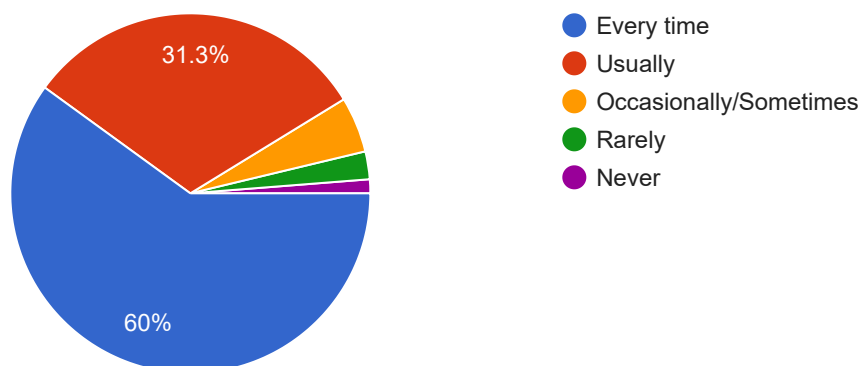

80 responses

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes.

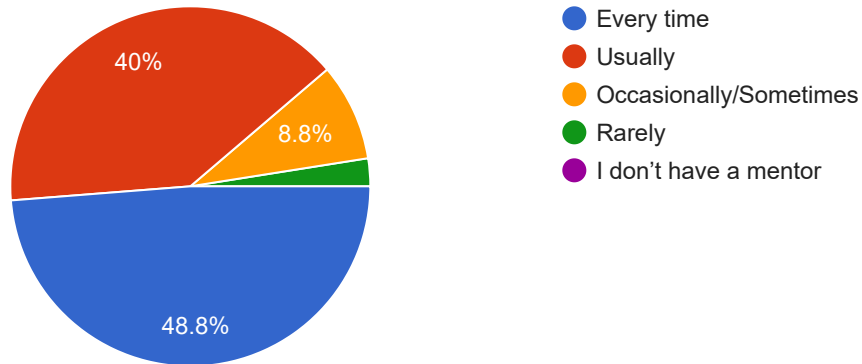

80 responses

11. Your mentor does a necessary follow-up with an assigned task to you.

 Copy

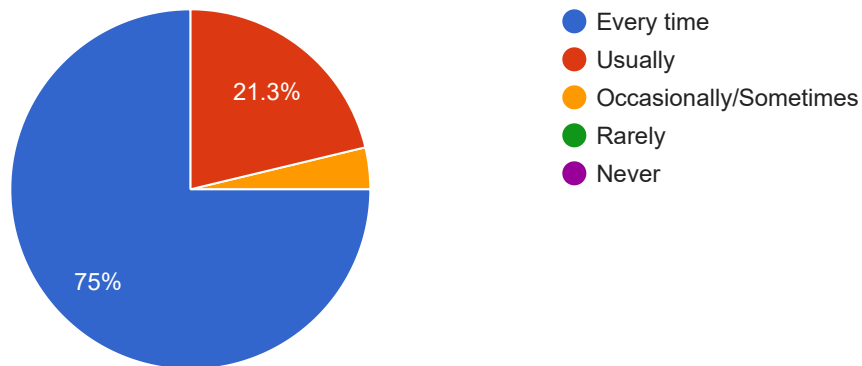

80 responses

12. The teachers illustrate the concepts through examples and applications.

 Copy

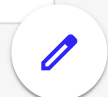

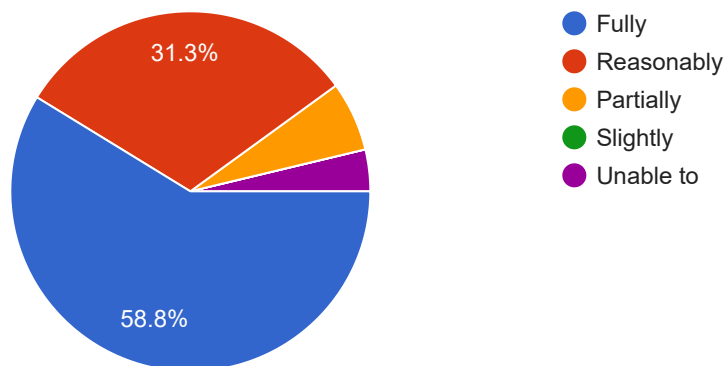

80 responses

13. The teachers identify your strengths and encourage you with providing right level of challenges.

 Copy

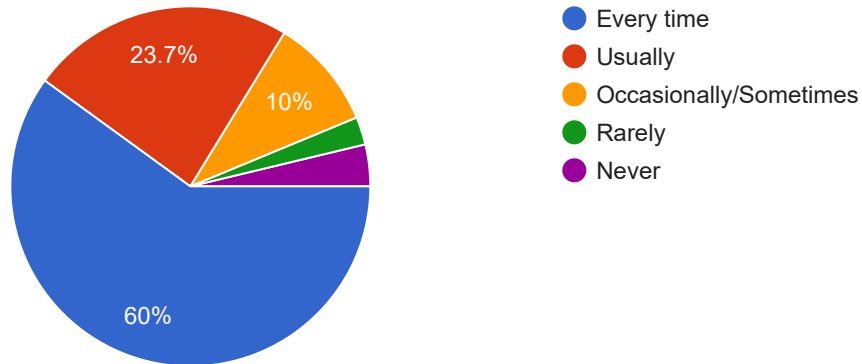

80 responses

14. Teachers are able to identify your weaknesses and help you to overcome them.

 Copy

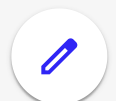

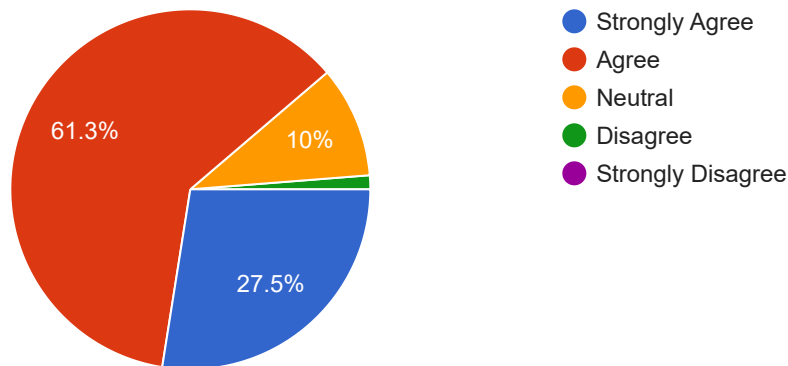

80 responses

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

 Copy

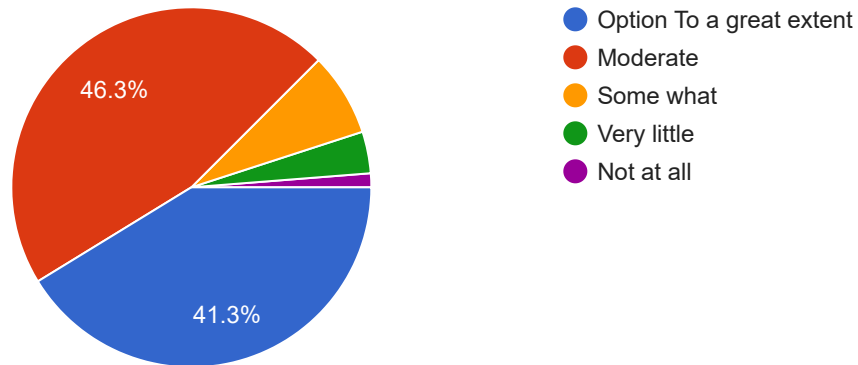

80 responses

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

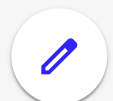

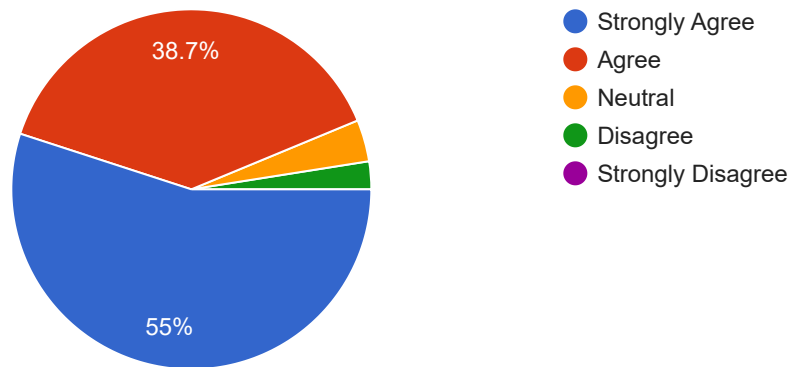

80 responses

17. Teachers encourage you to participate in extracurricular activities.

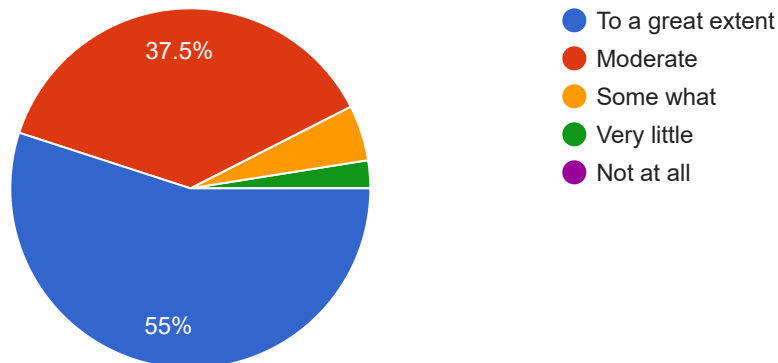

80 responses

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

 Copy

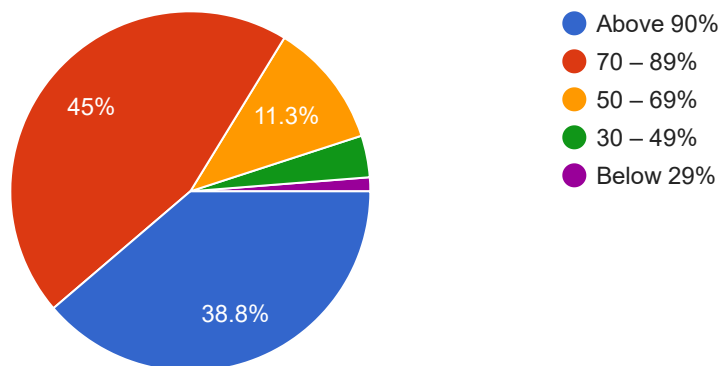

80 responses

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

 Copy

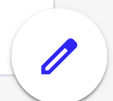

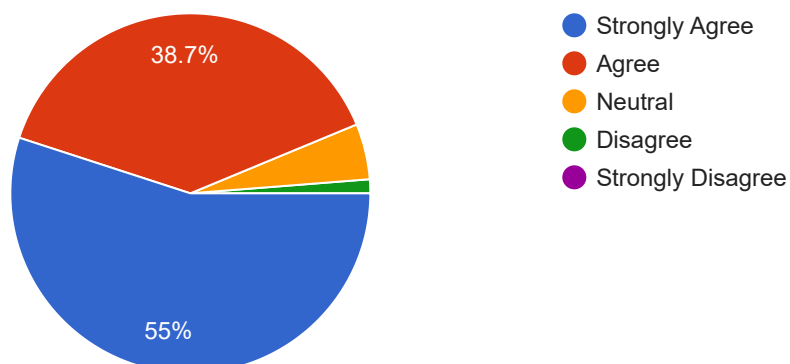

80 responses

20. The overall quality of teaching-learning process in your institute is very good

 Copy

80 responses

21. Students observations/suggestions to improve the overall teaching – learning experience in your institution

54 responses

Nothing

None

Good

Overall the experience is good.
Need more facilities on the behalf of technical learning.

By using more ICT tools.

Use ICT tools and digital game-based learning

Teachers did not listen the actual problem of a student they do what they want.

1. Regular tests should be taken to improve revision .
2. Syllabus should be strictly completed.

It is compulsory to fill this form. After filling this form, send intimation in the group that you have filled the form.

Good experience

Everything is good in our institution

.

More focus on visualization learning

Every teachers is very good and noble and supportive .can use more digital medium to teach

Almost everything in our college is fine .
But there must be the increment in college teaching staff because it is difficult for a single teacher to cover up the whole syllabus within the year .
So per subject at least two teachers are mandatory.
This is my suggestion.

Should provide internship opportunities.

Teachers do not listen to students and do whatever they want

Need of computers for students

All the teachers and their teaching skills are awesome and my learning experience is also very good

Avoid punishment and keep eye on every student and address bad behaviour quickly. Provide opportunities to them to speak in the class. Pay attention to the students who don't pay attention and reward their strength and strengthen their weaknesses. Be expressive and smile while teaching.

There are less equipments in the lab to perform a practical properly
There are only one teacher per one subject in some streams

There should be more practical classes. There should be industrial visit from college. Teacher should be well prepared before coming to the class. They should give the extra knowledge about carrier opportunities.

It was best time or experience of my life

Increase practical work

There should be counselling every month.

- 1) There are less equipment, so we can't do the experiment or practicals properly..
- 2) There are only one teacher per one subjects in some streams.

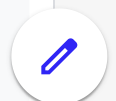

Excellent 🙏

Interactive Teaching: Students appreciate teachers who engage them in the learning process by encouraging discussions, asking questions, and providing real-world examples. This makes the subject more interesting and helps students retain information better.

Modern Technology: Incorporating modern technology like projectors, audio-visual aids, online resources, and digital tools can enhance the learning experience for students. This can also help teachers in presenting information in an engaging manner.

Regular Feedback: Students benefit from regular feedback on their progress and understanding of the subject. Teachers should provide constructive feedback on assignments, quizzes, and exams to help students improve their performance.

Personal Attention: Each student is unique, with different learning styles and needs. Teachers should try to provide personal attention to each student to help them succeed. This can be achieved through one-on-one discussions or small group sessions.

Encourage Active Learning: Active learning involves students in the learning process by allowing them to participate in group discussions, role-plays, and other interactive activities. This approach can help students learn better, and also promotes teamwork and collaboration skills.

Practical Learning: Practical learning experiences such as field trips, case studies, and hands-on projects provide students with real-world examples and applications of the concepts they learn in class. This helps them understand the subject better and apply their knowledge in real-world scenarios.

Timely Communication: Teachers should communicate effectively with students, providing timely updates and information about upcoming assignments, exams, and other events. This helps students plan their work and stay organized.

Everybody should done their responsibility honestly and fairly

Very well

I'm very satisfied with the teaching skills of our college...I wish it will continually work as it will...

Overall the teachers supported fully just needed more technical tools .

Provide the stage for every studend for inhancing the skills and confident.

The commerce teachers are perfect

Very good

in my opinion teacher should start more focus on ict tool's and projector in the class

Excellent

All teachers good in this college

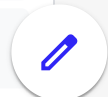

All teacher good ☺

Overall teaching learning experience is very good

All good

Class room benches and atmosphere of the class room can be more effective

Teachers teaching exp is good..

Overall teaching is good experience in learning is also good

To improve the teaching and learning experience teachers should take class test once a week.

Very Well

It is excellent 🙌👍

Want more and more staff for collage .

Want more and more staff for collage

Increase in the facility of internship and taught students not thoroughly but practically

Very good
